

Figure 1 is a horizontal bar chart illustrating the prevalence of various diseases in the United States. The x-axis represents the prevalence, ranging from 0.05 to 0.95. The y-axis lists the diseases. The bars are colored in a gradient from light blue to dark blue. The diseases and their approximate prevalence values are: Diabetes (0.05), Hypertension (0.15), Heart disease (0.25), Cancer (0.35), Asthma (0.45), Depression (0.55), Alzheimer's disease (0.65), Chronic kidney disease (0.75), and HIV/AIDS (0.85).
